PREFACE

The data in this report were compiled from Ohio Agricultural Statistics, Ohio Department of Agriculture; Livestock Market News, USDA; and Agricultural Prices, USDA.

This report includes both prices received and prices paid by Ohio producers for crops, livestock, and feed.

Yearly or market average prices are provided in each table. Five-year (1986-90), 10-year (1981-90), and 15-year (1976-90) monthly and yearly averages are included at the bottom of each table. The exception is the Sows table, which includes 5-year and 9-year averages.

The data in the tables for potatoes, apples, turkeys, and chicks are incomplete. The authors found it necessary to adjust some data series for lack of consistent data or because data were unavailable for selected months. For several years only quarterly prices were available for milk cows, feeder pigs, and feeds. Specific information on necessary changes, adjustments, and data sources is contained in the footnotes to the respective tables.

It is the intention of the authors to update this report annually with appropriate additions, revisions, or deletions. Requests for updated reports should be sent to the Department of Agricultural Economics and Rural Sociology, The Ohio State University, 2120 Fyffe Road, Columbus, Ohio 43210.
